About BuyBuyCart

BuyBuyCart is building a **smart vending network** powered by technology, supply chain expertise, and retail intelligence. Our machines deliver snacks, beverages, and daily essentials across workplaces, residential societies, hospitals, colleges, and high-footfall locations across India.

Technology-Driven

Smart payment systems and real-time monitoring built in

Supply Chain Backed

Grocery expertise ensures efficient refilling and high uptime

Partner-Friendly

You invest. We operate. You earn.

Investment Structure at a Glance

| Particular | Details |
|--------------------------|---------------------|
| Total Investment | ₹2,00,000 / machine |
| Minimum Purchase | No minimum required |
| Security Deposit | ₹1,00,000 |
| Annual Maintenance (AMC) | ₹10,000 / year |
| Lock-in Period | 3 Years |

- ❏ No complex structures. One machine is enough to get started — scale at your own pace.

you can just start with one machine

The ROI Model: Simple & Strong

As a BuyBuyCart vending partner, you always receive the **higher** of two monthly return options — giving you downside protection and upside potential in one clean structure.

Option 1 — Fixed ROI

2.5% of machine cost per month

Example: $2.5\% \times ₹2,00,000 = ₹5,000/\text{month}$
guaranteed floor

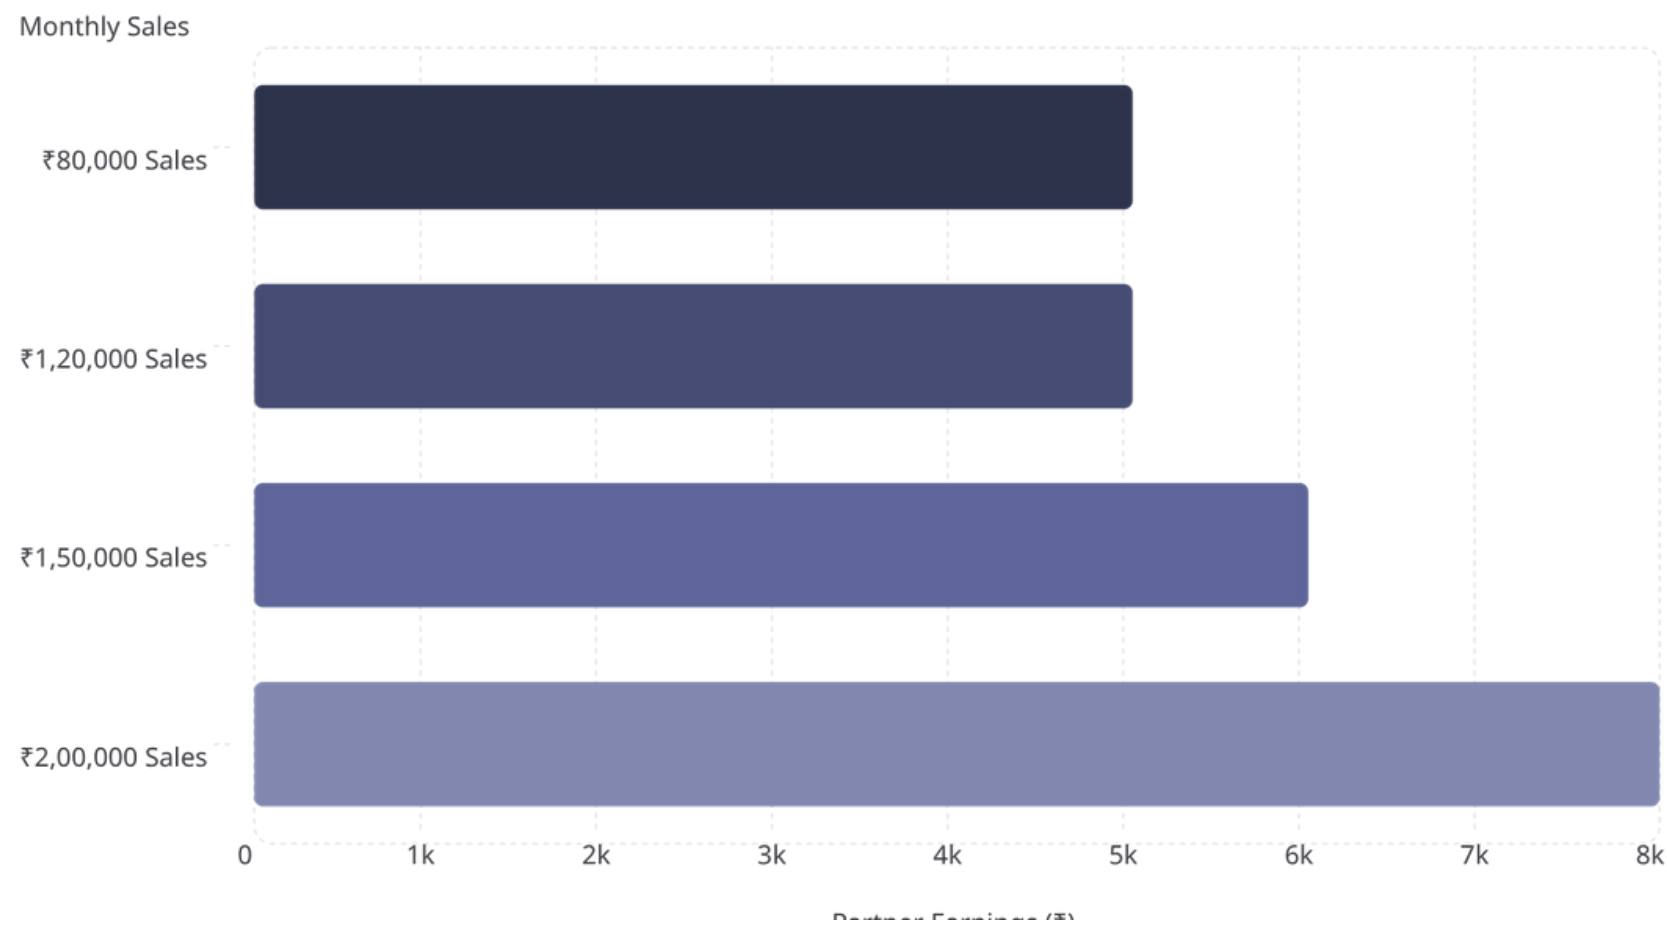

Option 2 — Sales-Linked ROI

4% of total monthly sales

Example: $4\% \times ₹2,00,000 \text{ sales} = ₹8,000/\text{month}$

 **★** You always receive whichever amount is **higher**. Your downside is protected. Your upside is unlimited.

Earnings in Action: Realistic Scenarios

What the numbers mean

Even at lower sales volumes, you earn the fixed floor of **₹5,000/month**. As sales grow, your earnings scale with them — up to ₹8,000/month and beyond.

- Floor income: ₹5,000/month (₹60,000/year)
- High-sales potential: ₹8,000+/month
- 3-year total at floor: ₹1,80,000+

What BuyBuyCart Handles — Everything

As a partner, your role is to invest. BuyBuyCart takes care of **every operational detail** — so your income is truly passive.

Installation & Setup

End-to-end machine placement and commissioning.

Sourcing & Refilling

Products sourced from our grocery supply chain — better margins, reliable stock

Location

Location selection & placement decisions are managed by BuyBuyCart to maximize sales potential.

Technology & Payments

Smart payment systems, UPI integration, and real-time sales data

Maintenance & Monitoring

Proactive uptime management, inventory reports, and performance tracking

Ideal Locations for Maximum Returns

Corporate Offices

High daily footfall, consistent demand for snacks and beverages

Residential Societies

24/7 convenience for families in gated communities

Hospitals & Institutions

Steady round-the-clock need for essentials and refreshments

Colleges & Hostels

High-volume young consumers with frequent vending needs

Partner-First Exit Policy – No Questions Asked

After the **3-year lock-in period**, partners can exit with a structured capital return — ensuring that beyond your monthly earnings, your principal is meaningfully protected.

Exit Payout Breakdown

| Component | Amount |
|-------------------------|------------------|
| 50% of Machine Value | ₹1,00,000 |
| 100% Security Deposit | ₹1,00,000 |
| Total Exit Value | ₹2,00,000 |

Why This Matters

Your original outlay of ₹2,00,000 is effectively returned on exit — after 3 years of monthly earnings. That means your income over the lock-in period is essentially **net profit on recovered capital**.

- 📄 Capital protection + monthly returns = a rare combination in passive investment models.

Why BuyBuyCart Stands Apart

No Complexity

No confusing XIRR calculations, no market dependency — just a clear, simple monthly return structure

Supply Chain Advantage

Backed by BuyBuyCart's grocery network — better refill efficiency, lower costs, and higher machine uptime than typical vending startups

Transparent & Scalable

Start with one machine, scale with confidence. No minimum purchase, full visibility into performance data
